LiveAssist
Since 2014.

CHECK-IN & CHECK-OUT
MADE EASY & SAFE!

Keep your customers and staff safe while ensuring compliance.

The **LiveAssist Check-In Assistant** is a seamlessly integrated solution that automates the flow of a 'safe' check-in for staff, clients, third-party caregivers, and contractors, as they enter your transportation facility, office, building or retail environment.

1. **SANITIZE** hands, put on gloves and mask
2. **ANSWER** check-in questionnaire - including compliance screening questions
3. **CHECK TEMPERATURE & MASK** verification

1 — SANITIZE → 2 — ANSWER → 3 — CHECK

Available as a single integrated unit or in segments to address architectural entry requirements

- Safe Distancing Monitoring
- Virtual Assistant
- Signage & Messaging
- Compliance, Analytics & Reporting
- Mobile Connection Carts (video-conferencing)

SAFE PLACE
LiveAssist

POWERED BY

SPINETIX™
N°1 IN DIGITAL SIGNAGE SOLUTIONS

Features & Benefits:

- **Fully automated** – Take the burden off your front-line staff, who do not have extra cycles to monitor compliance.

- Visitor Registration – Replace 'manual paper sign-in logs'.

- Know in real-time who is coming into your facility and who they are there to see.

- Temperature screening – Ensure that the people coming into your facility are not running a fever.

- PPE screening – Ensure people sanitize and put on gloves and mask before entering the facility.

- Ensure Compliance - the system doesn't forget to ask or miss any steps to comply with health and other regulations.

- Reporting – Generate reports in real-time that provide the details & records you want to see.

- Monitor and manage occupancy in real-time – See how many people are in the facility and ensure that occupancy is compliant.

- Touchless Solution – Use your own mobile device.

- Access control – Access will not be granted until all steps are completed. If someone does not pass screening, alerts will be sent to staff to notify of the event.

- Modular – can be a single unit or combined with other products from our ecosystem.

- Updatable – Things are changing quickly; our solutions can adapt and grow with the changing environment.

*Ideal for organizations who require a record of **compliance and a screening questionnaire** such as:*
- Health care (triage)
- Long term health care facilitates and seniors' residences
- Transportation
- Reception areas
