HMP200

End of Life (EOL) Notice

Hergiswil, Switzerland — 1 January 2018— SpinetiX has successfully introduced the third generation of HMP players in 2015. Consequently, the second generation of HMP players have started the natural transition towards the End of Life. We have already issued the NRND (Not Recommended for New Deployments) Notice for HMP200 in January 2017. This notice is to inform you of our decision to issue the EOL Notice for HMP200 valid as of 1 January 2018. It is SpinetiX goal to make this process seamless to all our partners and to provide optimal visibility into what you can expect during the process.

What does EOL Notice stand for?

The EOL Notice informs the public that the life of the concerned product came to its end and that the product is not produced any longer.

What is the HMP200 migration path?

HMP200 migration path is the HMP350. The HMP350 offers the equivalent of all standard features of HMP200 at the same price.

What does the HMP200 EOL Notice mean for customers?

It is necessary to follow the migration path as described above.

Validity of EOL Notice?

HMP200 EOL is valid as of 1 January 2018.

When to expect End of Warranty (EOW)?

Please note that HMP200 remains under its standard warranty conditions until 1 January 2020.

Where to find SpinetiX Hardware End of Life Policy?
