

**What is this?**

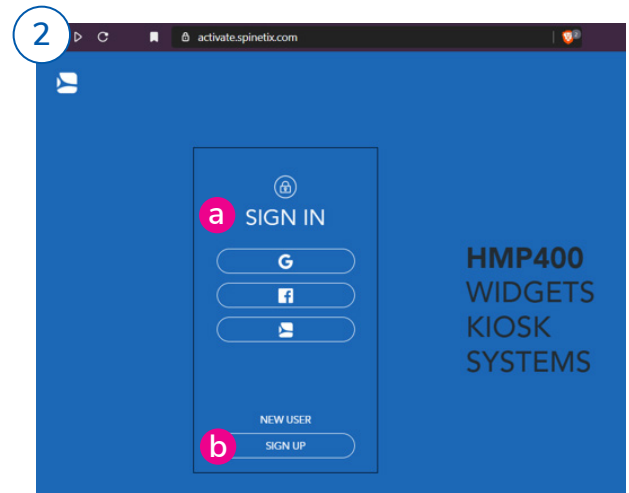

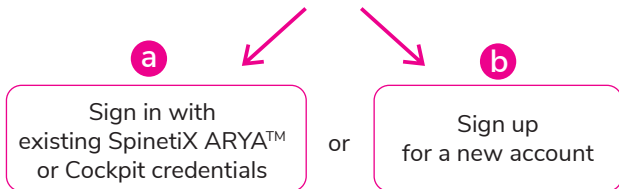

This document guides you through the steps to pair SpinetiX DSOS WIDGETS, KIOSK, or SYSTEMS licenses on compatible digital signage players. You can find more information about the licenses and the features they unlock on the HMP400/400W on our webpage: [spinetix.com/HMP400](http://spinetix.com/HMP400)

**SPINETIX ACTIVATE PLATFORM**

Please follow the steps below to set you up on the SpinetiX Activate platform.

**STEP 1:** Purchase your HMP400/400W player from your authorized SpinetiX Distributor

**STEP 2:** Go to [activate.spinetix.com](http://activate.spinetix.com)

**DSOS LICENSE ACTIVATION PROCESS**

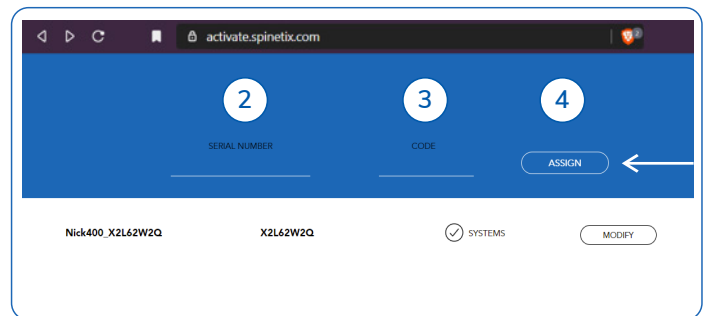

Once signed in the Activate platform, follow the steps below to pair your license on your player.

**STEP 1:** Acquire your WIDGETS, KIOSK or SYSTEMS license from your SpinetiX authorized reseller or distributor

**STEP 2:** Enter the serial number of your HMP400/400W player

**STEP 3:** Enter the code of your DSOS license

**STEP 4:** Click on the “Assign” button

**NOTE**

- Make sure your player is online as you can't assign a license to an offline player.
- Once you assign a license to your player you can online remove it or assign it to a different player.
- A license can't be removed from an offline player. In case of RMA for instance, please contact support for a manual release of the license.

**SUPPORT**

If you have any questions with the functioning of the DSOS Activate platform, please use the live support chat provided within the platform or contact your local reseller/distributor or contact our team at [support@spinetix.com](mailto:support@spinetix.com)
