Room scheduling with state of the art digital signage.

To bring you the cutting-edge signage experience of the future, SpinetiX partnered with Crestron and integrated smart room scheduling with state of the art digital signage.
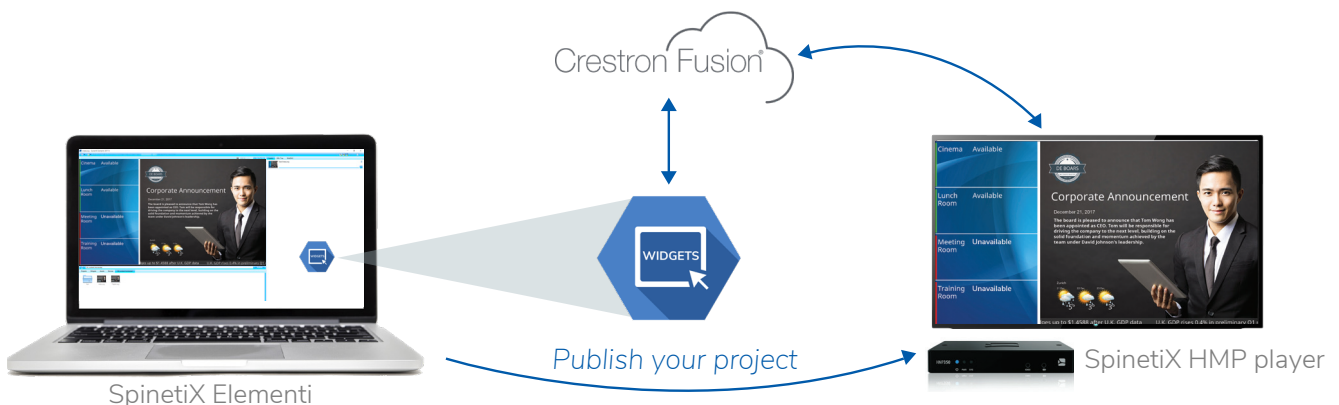

spinetix.com/crestron

An exclusive blend of technologies.

The combination of Crestron and SpinetiX technologies empowers room scheduling systems and offers additional customer benefits including:

- *Richness of interactive content* displayed on the screens (videos, images, messages).
- *An easy, consistent customization* of the screens with customer branding.
- *Digital signage as default content* when room scheduling is not used.
