

SpinetiX Unveils Elementi 2025 Software: A Major Leap in Data-Driven, High-Performance Digital Signage

Hergiswil, Switzerland – 5 June 2025 – SpinetiX, the Swiss leader in digital signage solutions, launches Elementi 2025, the next generation of its award-winning content-authoring software. Designed for integrators and enterprise users alike, Elementi 2025 introduces powerful Microsoft® 365 widgets, enables sub-millisecond multi-player sync, and features built-in HDR and an updated Chromium engine, setting a new benchmark for data-rich, visually striking signage.

Whether driving a single information screen or a stadium-sized LED wall, Elementi 2025 raises the bar on three fronts: data, performance, and exceptional visual quality. New Microsoft 365 widgets put live corporate data securely on display in seconds; a re-engineered sync and multi-output engine keeps every frame in perfect sync, while built-in HDR and an updated Chromium core ensure vivid color and rock-solid security. The result is a faster path from concept to “wow” and a clear performance edge for integrators and end users alike.

NEW in Elementi 2025

- **Microsoft 365 Widgets for Power BI, SharePoint News, and Viva Engage.**
Publish live dashboards and corporate feeds on any display – no coding required.
- **Sub-Millisecond Player Sync + new auto multi-output engine.**
Pixel-perfect playback on LED walls, LCD video mosaics, and mixed-orientation displays.
- **HDR support for iBX players.**
Deeper contrast, richer color, life-like visuals in any lighting environment for the SpinetiX line of iBX players.
- **Chromium 126 HTML5 Engine.**
Faster rendering, tighter security, broader third-party compatibility with any web-based content.

“Elementi 2025 gives integrators a performance edge and opens fresh creative ground,” said Francesco Ziliani, CEO of SpinetiX. “Combining real-time Microsoft 365 data with sub-millisecond sync and HDR means corporate screens match the requirements of the high-impact workplace.”
